--------	-------------------	--	--	--	--	--	--

2024/2072/TCA	FOUR OAKS 23 FERNHILL ROAD GRANGE-OVER-SANDS LA11 7JD	Palm tree. Removal. Small palm tree in front of the property window. Roughly 2.3m high. Roughly 2m from property We propose removing this palm tree as it is getting bigger and is now beginning to block light into the property. Additionally we want to create a seating area to the front of the property. Additional context. We are removing more shrubby to the front and within the garden at a lower height than 1.5 metres. This is predominantly about 'levelling' the current garden as it is on multiple levels and is dangerous. We propose adding in rose bushes, bramble bushes and another apple tree in another part of the garden as part of the changes. The removal of anything is mainly shrubs, ferns, fig	Easting 340296 Northing 477501	Sarah Coutts	Tree in Conservation Area	No Decision	
---------------	--	--	-----------------------------------	--------------	------------------------------	-------------	--

bush and grasses at a low level. The palm tree is the only tree over 1.5 metres with a diameter of over 7.5cm in the garden that we are proposing changing. We would not want to add a replacement tree in the same part of the garden as it would create the same issue of light blocking. We would propose adding trees and bushes into other parts of the garden (listed above) that don't block light or views for neighbouring properties.

2024/1888/TCA	49 ARTHUR STREET PENRITH CA11 7TU	<p>Conservation area tree works, comprising; felling and removal of large Oak tree at the bottom of the back garden of 49 Arthur Street.</p> <p>The tree has reached an unmanageable size. It is a nuisance to neighbours due to blocking of natural light, overhanging branches and leaf fall. Roots have caused damage to neighbours paving (50 Arthur Street) and is beginning to cause damage to garden fence and stone wall.</p>	Easting 351716 Northing 530516	John Marshall	Tree in Conservation Area	Tree Ca No Objection	6 Nov 2024

2024/1893/TCA	BETHANY CHRISTIAN CHURCH BETHANY HALL LIGHTBURN ROAD ULVERSTON LA12 0BX	Tree 1 (Ginkgo Biloba) to be felled to ground level. Tree 2 (believed to be an Italian Alder) to be felled to ground level. All work to be carried out by a tree surgeon (likely to be Steven Walker). The reason for felling these trees are as follows: 1. Both trees have grown very large and are now above the roof line 2. The trunk of both trees are only 1m from the building at ground level 3. The fallen leaves from the trees result in blocked gutters and drains which have caused damp issues in the building and require continuous maintenance 4. The trees are severely restricting light entry into the building 5. The roots from the trees, if left unchecked will create a serious impact on the foundations of the building. Should subsidence occur, this would not be covered by	Easting 328730 Northing 478031	Bethany Christian Church	Tree in Conservation Area	Tree Ca No Objection	5 Nov 2024

our buildings insurance.

6. The branches of both trees are striking the building during stormy weather

7. Replacement slow growing trees or bushes will be planted further away from the building.

Our Gardener has won the best church garden award in the past and we anticipate that the removal of these trees will enable us to beautifully landscape the shrubbery further, which will enhance the look to those walking past.

Please note for the avoidance of doubt, Bethany Christian Church is a registered charity, with Trustees (contact details provided under tree ownership section) and the application is made on this occasion by the Treasurer
- Bethany Christian Church.
