

Weekly Planning List

Weekly list of valid planning applications and planning applications determined between:

15/07/2024 and 21/07/2024

The weekly planning list has 2 sections: Valid Applications and Applications Determined.

Do not forget to look in both sections for applications within your parish.

Parishes within the Barrow area can be found by clicking [here](#).

See our online applications at <https://www.westmorlandandfurness.gov.uk/planning-and-building-control/search-planning-applications>

<i>Parish</i>	<i>LOWICK</i>						
2024/1243/	HOLLIN BANK LOWICK GREEN ULVERSTON LA12 8EA	Lancashire CC TPO No 4 1958 This application is to crown reduce T19 (Fagus sylvatica) at Hollin Bank. The tree is a very large, mature specimen and displays normal vigour with no visible signs of dysfunction. It does however dominate the garden, causing excessive shading to the house and lawns. While it is currently healthy and structurally sound, the owner is concerned that due to its size and proximity to his property, the tree could be uprooted and strike the house in high winds and rain, when soils lose their cohesive nature due to excessive water content. My recommendation is to reduce the tree's height by 5m and laterally in all directions by 3m. This would reduce the wind sail area of the crown and therefore minimise the risk of failure during extreme weather conditions.	Easting 329546 Northing 485237	Mr Peter Jewell	Tree Preservation Order	No Decision

2024/1297/TPO	GOODWOOD CARLETON ROAD PENRITH CA11 8LT	Works to trees subject to Tree Preservation Orders EDC T3/CC24-G3 T3/CC24-G3 Field OS 4600, Brooklands. Trees 6 & 7 are both lapsed pollards, that have been cut back to a single stem in the past. As a result of this, they have developed dense crowns that comprise of multiple long weak stems above the old pollard point that are attached to the main stem with tight forks with included bark union, which have a high potential to fail over time. Tree 5 appears to have a virgin crown that has not been pollarded and therefore would benefit from such a practice in the interests of good tree management. All three trees appear in excellent physiological condition and therefore should respond positively from the pruning work.	Easting 352387 Northing 529854	Mr Paul Footie	Tree Preservation Order	No Decision
